

**Q: Are there any specific Brownfield sites within the listed target areas in mind for assessment?**

*A: There are currently no specified Brownfield sites within the target areas listed in mind for assessment. A partial inventory was completed for the current Community Wide Assessment grant we are working on. In addition, there may be sites identified by the time the application is due that we cannot complete with our current funding that may be included with the application.*

**Q: Does RVCOG have a list of coalition partners (Jackson and/or Josephine County, Cities of Medford, White City, Central Point, and Grant Pass) committed so far?**

*A: Four of the coalition partners (Medford, Central Point, Grants Pass, and Jackson County) are committed to continuing to work on the Brownfields program and have worked together as Coalition members for the last three years. Josephine County is unknown as a Coalition member and is not committed to the program at this time.*

*White City is unincorporated and falls under County representation so the area is committed with Jackson County.*

**Q: Can RVCOG confirm that a Cover Page, Table of Contents and Appendix Cover (for Resumes) does not count toward the 10 page limit of the SOQ?**

*A: We are not requiring a Table of Contents, Cover Page, or Appendix Cover. If included, these would count toward the 10 page limit.*

**Q: Would RVCOG allow the addition of a one page cover letter that doesn't count toward the page limit?**

*A: A specific cover letter is not required. A cover letter would count toward the 10 page limit.*
