...

💧💧💧 Bright and early this morning, [Stream Smart - a clean water project](#) staff met with [Oregon DEQ](#) to collect water samples from Bear Creek and the Rogue River. Additionally, a quality assurance-quality control (QA/QC) check was performed on Stream Smart's monitoring equipment, such as its conductivity meter and turbidimeter. 💧💧💧

🐾 Don't two of the Stream Smart staff (one of them isn't pictured) look super adorable out on the monitoring field run? 🐾

## EDUCATION/OUTREACH REPORT AND IMPLEMENTATION ACTIVITIES – STREAM SMART, TMDL, AND MS4 STORMWATER PROGRAMS (JANUARY 2026 MEETINGS)

A video frame showing a woman with short brown hair, wearing a red and green baseball cap and a green quilted jacket. She is smiling and looking towards the camera. The background shows a residential area with a white fence, green bushes, and a utility pole with wires. In the top left corner, there is a circular logo for "STREAM SMART" with a blue and white design. The video player interface at the bottom shows a play button, the time "0:04 / 0:22", a progress bar, and icons for settings, volume, and full screen.
